

## Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu  
National Development Organisation, Promoted by Govt of India  
Central Board of Examination

DIPLOMA IN DIALYSIS TECHNOLOGY

TWO YEARS (FIRST YEAR) EXAMINATION QUESTION BANK

COMMUNICATIVE ENGLISH AND COMPUTER FUNDAMENTALS

### I. SHORT ANSWER QUESTIONS: ( 10X2 = 20 )

- 1) Icons
- 2) Computer
- 3) Degrees of comparison
- 4) Enter
- 5) What is meant by verb?
- 6) Define the formation of Adjectives?
- 7) What is RAM ?
- 8) Save
- 9) What is meant by strong verbs?
- 10) Define Subject

### 2. WRITE SHORT NOTES ON: ( 5X3 = 15 )

- 1) Windows explorer
- 2) Key board
- 3) What are the characteristics of computer?
- 4) Title bar
- 5) Explain informal letter?

### 3. WRITE SHORT NOTES ON: ( 5X5 = 25 )

- 1) Write a letter to a book seller ordering some prize books?
- 2) Word area
- 3) Write any two types of job application?
- 4) Custom filter
- 5) Explain 'find', 'replace' and 'go to'.

### 4. ESSAY QUESTIONS: ( 4X10 = 40 )

- 1) What is Mail Merge
- 2) Write briefly about generations of computer?
- 3) Explain in detail about articles?
- 4) Explain the keyboard

## DIPLOMA IN DIALYSIS TECHNOLOGY

### TWO YEARS (FIRST YEAR) EXAMINATION QUESTION

#### GENERAL ORIENTATION IN NEPHROLOGY, HISTORY & PRINCIPLES OF DIALYSIS -

##### **I. SHORT ANSWER QUESTIONS: ( 10X2 = 20 )**

- 1) Mass transfer coefficient
- 2) Endocrine functions of kidney ?
- 3) Name any two important electrolytes and the concentration in blood.
- 4) Mention any two causes for metabolic alkalosis.
- 5) Name any two conditions that leads to damage of renal tubules.
- 6) Clearance
- 7) Mention any three causes for Metabolic acidosis ?
- 8) Write the formula to calculate anion gap and mention one condition which is associated with increased anion gap.
- 9) Direction of flow
- 10) What is standard bicarbonate? Mention its significance.

##### **2. WRITE SHORT NOTES ON: ( 5X3 = 15 )**

- 1) Explain the structure of Nephron with a neat diagram.
- 2) Metabolic acidosis ?
- 3) Glomerular function tests ?
- 4) Biomedical waste management
- 5) Compare and contrast the normal kidney function with dialysis

##### **3. WRITE SHORT NOTES ON: ( 5X5 = 25 )**

- 1) Illustrate the contents of dialysate using a pie diagram.
- 2) Glomerular function tests.
- 3) Name any three factors which affect diffusion.
- 4) Functions of the kidney
- 5) List the endocrine functions of kidney.

##### **4. ESSAY QUESTIONS: ( 4X10 = 40 )**

- 1) Fluid and electrolyte balance
- 2) Define communication and explain the process, types, barriers and functions of communication
- 3) Renal function tests
- 4) Different ways of sterilization

## **Nehru Skill Development Mission**

Established Under Act 1882, Registered Under Govt of Tamilnadu  
National Development Organisation, Promoted by Govt of India  
Central Board of Examination

### **DIPLOMA IN DIALYSIS TECHNOLOGY**

### **TWO YEARS (FIRST YEAR) EXAMINATION QUESTION**

#### **PERITONEAL & RECENT ADVANCE IN DIALYSIS - I**

#### **I. SHORT ANSWER QUESTIONS: ( 10X2 = 20 )**

- 1) Predialysis assessment for AV fistula ?
- 2) Two indications where catheters are used for vascular access ?
- 3) Name the blood vessels which supplies the peritoneum.
- 4) Define clearance.
- 5) Formula to calculate Transmembrane pressure ?
- 6) Complication of CAPD ?
- 7) Which are Complication During dialysis?
- 8) First use syndrome ?
- 9) What are the types of urea clearance and give the reference range for both.
- 10) How will you determine dialyzer clearance?

#### **2. WRITE SHORT NOTES ON: ( 5X3 = 15 )**

- 1) CAPD procedure.
- 2) How will you measure dialyzer effectiveness?
- 3) What are the acute and chronic complications of dialysis?
- 4) Advantages and disadvantages of renal transplantation.
- 5) Renal handling of sodium.

#### **3. WRITE SHORT NOTES ON: ( 5X5 = 25 )**

- 1) Complications of Chronic Renal failure.
- 2) Describe Dialysis membrane.
- 3) Write briefly about the recent advance in dialysis
- 4) Name any three ways how will you prevent blood loss during dialysis.
- 5) Write briefly about dialyzer reprocessing procedure ?

#### **4. ESSAY QUESTIONS: ( 4X10 = 40 )**

- 1) Explain in detail the structure of Kidney with suitable illustration.
- 2) Explain the start, monitoring and the end of routine hemodialysis treatment.
- 3) Describe blood-purification in the Haemo Dialysis.
- 4) Describe the predialysis setup of a hemodialysis machine and extracorporeal circuit ?

Central Board of Examination

### DIPLOMA IN DIALYSIS TECHNOLOGY

### TWO YEARS (FIRST YEAR) EXAMINATION QUESTION BANK FOR 2021

#### DIALYSIS-PATIENT CARE MANAGEMENT -I

#### **I. SHORT ANSWER QUESTIONS: ( 10X2 = 20 )**

- 1) Two Causes for pruritis in CKD ?
- 2) Mention the normal fasting and post prandial blood glucose level.
- 3) How will you assess the maturity of a fistula?
- 4) First use syndrome.
- 5) Two causes for pericarditis in HD patient ?
- 6) Vitamin requirements for HD patients ?
- 7) Name any two main kidney functions that are replaced by Dialysis ?
- 8) AV graft complications.
- 9) Mention any two causes for post renal causes of renal failure?
- 10) How will you initiate dialysis through AV fistula?

#### **2. WRITE SHORT NOTES ON: ( 5X3 = 15 )**

- 1) Which is Care of before Dialysis?
- 2) Quality of RO water.
- 3) Name the three options available for a kidney transplant.
- 4) Which person's Kidney Select for kidney Transplantation?
- 5) How to Manage the dialysis patient?

#### **3. WRITE SHORT NOTES ON: ( 5X5 = 25 )**

- 1) Write briefly about amyloidosis.
- 2) Laboratory assessment of glomerular function test
- 3) Write briefly about dialyzer reprocessing procedure.
- 4) Name any three complication of diabetes mellitus.
- 5) Name three signs and symptoms of uraemia

#### **4. ESSAY QUESTIONS: ( 4X10 = 40 )**

- 1) Guidelines for preventing infections during hemodialysis ?
- 2) Anticoagulation in Hemodialysis ?
- 3) Lab workup of a patient before hemodialysis ?
- 4) Identify causes, signs and symptoms and presentation of clinical and technical complications that may occur during dialysis.

## **Nehru Skill Development Mission**

Established Under Act 1882, Registered Under Govt of Tamilnadu  
National Development Organisation, Promoted by Govt of India  
Central Board of Examination

### **DIPLOMA IN DIALYSIS TECHNOLOGY**

### **TWO YEARS (FINAL YEAR) EXAMINATION QUESTION**

### **GENERAL ORIENTATION IN NEPHROLOGY, HISTORY & PRINCIPLES OF DIALYSIS -**

#### **I. SHORT ANSWER QUESTIONS: ( 10X2 = 20 )**

- 1) Define dialysis ?
- 2) Two causes for secondary hyperparathyroidism.
- 3) Name any two important electrolytes and the concentration in blood.
- 4) Two causes for secondary hyperparathyroidism ?
- 5) Thyroid hormones
- 6) Write the formula to calculate renal failure index.
- 7) Write the formula to calculate renal failure ?
- 8) Pulse pressure
- 9) List the members involved in HD care team.
- 10) Define convection ?

#### **2. WRITE SHORT NOTES ON: ( 5X3 = 15 )**

- 1) Glomerular function tests.
- 2) Complications of Chronic Renal failure.
- 3) Mention any three causes for Metabolic acidosis.
- 4) Write briefly about tubular function test ?
- 5) Endocrine functions of kidney.

#### **3. WRITE SHORT NOTES ON: ( 5X5 = 25 )**

- 1) Write the formula to calculate creatinine clearance. Mention any one condition where creatinine clearance is decreased
- 2) Renal handling of sodium.
- 3) Explain the structure of Nephron with a neat diagram ?
- 4) How can you help your CRF patients achieve better glycemic status.
- 5) Three causes for chronic renal failure.

#### **4. ESSAY QUESTIONS: ( 4X10 = 40 )**

- 1) Explain in detail with suitable illustration the various scientific principle used in dialysis.
- 2) Explain in detail about the acid base status and how it can be managed in a dialysis patient
- 3) Explain in detail with suitable illustration the various scientific principle used in dialysis ?
- 4) Explain in detail about the acid base status and how it can be managed in a dialysis patient ?

# **Nehru Skill Development Mission**

Established Under Act 1882, Registered Under Govt of Tamilnadu  
National Development Organisation, Promoted by Govt of India  
Central Board of Examination

## **DIPLOMA IN DIALYSIS TECHNOLOGY**

### **TWO YEARS (FINAL YEAR) EXAMINATION QUESTION**

#### **PERITONEAL & RECENT ADVANCE IN DIALYSIS - II**

#### **I. SHORT ANSWER QUESTIONS: ( 10X2 = 20 )**

- 1) Name any two indication where catheters are used instead of AV fistula
- 2) Mention the two types of peritoneal dialysis regimen.
- 3) Write the equation to correct the creatinine levels in dialysate and serum
- 4) Write the formula to calculate intraperitoneal residual volume.
- 5) How will you diagnose early ultrafiltration failure
- 6) What is mass transfer area co-efficient.
- 7) Mention any two complications of peritoneal dialysis.
- 8) Mention any two advantage of peritoneal dialysis over hemodialysis
- 9) Types of PD catheters.
- 10) Name the blood vessels which supplies the peritoneum

#### **2. WRITE SHORT NOTES ON: ( 5X3 = 15 )**

- 1) Predialysis assessment of catheter use
- 2) Write about urea kinetic modeling and pre and post dialysis BUN measurement
- 3) Calculation of transmembrane pressure
- 4) Write briefly about dialyzer reprocessing documents.
- 5) Explain briefly about peritoneal equilibration test.

#### **3. WRITE SHORT NOTES ON: ( 5X5 = 25 )**

- 1) Explain the importance of Kidney
- 2) Explain the role of Nurse for Dialysis Patient
- 3) write about Peritoneal
- 4) Write briefly about urea reduction ratio
- 5) Button hole technique.

#### **4. ESSAY QUESTIONS: ( 4X10 = 40 )**

- 1) Explain in detail the principles procedure follow up and complication of peritoneal dialysis.
- 2) Explain in detail the principle and procedure of hemodialysis
- 3) How is chronic kidney diseases treated? What are symptoms?
- 4) How will you advise to patients for care of their I.J.V. and femoral?

## Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu  
National Development Organisation, Promoted by Govt of India  
Central Board of Examination

### DIPLOMA IN DIALYSIS TECHNOLOGY

### TWO YEARS (FINAL YEAR) EXAMINATION QUESTION

#### DIALYSIS - PATIENT CARE MANAGEMENT - II

#### **I. SHORT ANSWER QUESTIONS: ( 10X2 = 20 )**

- 1) Mention any two function of PCT?
- 2) Name any two function of calcitriol
- 3) Mention any two causes for post renal causes of renal failure?
- 4) Mention any two acute complications of chronic renal failure?
- 5) What is NHHD?
- 6) Mention two causes for hyperkalemia
- 7) Mention two symptom of hyponatremia
- 8) Mention two causes for anemia in CRF patient
- 9) Mention the normal systolic and diastolic blood pressure in a normal healthy adult?
- 10) Mention the normal fasting and post prandial blood glucose level

#### **2. WRITE SHORT NOTES ON: ( 5X3 = 15 )**

- 1) What is your role in Anemia management in chronic renal failure
- 2) Laboratory assessment of glomerular function test
- 3) Write briefly about amyloidosis
- 4) Explain briefly about your role in electrolyte management in a dialysis patient
- 5) Explain how will you manage bleeding problem during dialysis.

#### **3. WRITE SHORT NOTES ON: ( 5X5 = 25 )**

- 1) What is E.S.R.D.?
- 2) What advice will you give to patients for healthy life?
- 3) How many options for C.R.F patients, when they knowing that their kidneys are not working?
- 4) Write how will you manage pruritis in a CRF patient
- 5) Name the three options available for a kidney transplant

#### **4. ESSAY QUESTIONS: ( 4X10 = 40 )**

- 1) Explain in detail about nutritional management of a dialysis patients.
- 2) Explain the detail the various clinical and social aspects involved in the self management of patient who undergo dialysis.
- 3) What kidney do in our body?
- 4) What is hemodialysis does & adequacy?
