

Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu
National Development Organisation, Promoted by Govt of India
Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES

TWO YEARS (FIRST YEAR) EXAMINATION

COMMUNICATIVE ENGLISH AND COMPUTER FUNDAMENTALS

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) Define what is demonstrative pronoun?
- 2) What is conjunction?
- 3) Define indefinite Article?
- 4) Define abstract noun?
- 5) Define proper noun?
- 6) Digital computer
- 7) Desktop
- 8) Briefly explain the table menu in MS Excel
- 9) Chart elements
- 10) Adjectives

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) Auto text
- 2) Explain 'find', 'replace' and 'go to'.
- 3) What is URL?
- 4) Define shortcut keys for UNDO and REDO?
- 5) MS Access

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) Explain few sentences using "am, is, are"?
- 2) Explain Arithmetic logic unit
- 3) Symbols and pictures
- 4) Briefly explain the table menu in MS Excel
- 5) Signals of diabetic emergency

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) Write a letter to a sports company ordering some sports goods?
- 2) Create a worksheet using fill command
- 3) What is Mail Merge
- 4) Define Control Panel?

Nehru Skill Development Mission

National Development Organisation, Promoted by Govt of India
Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES TWO YEARS (FIRST YEAR) EXAMINATION

VETERINARY ANATOMY

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) Define Homeostasis
- 2) Define Transverse Plane
- 3) Define Dorsal Plane
- 4) What is the difference between arteries and veins?
- 5) What is the function of the mitral valve in the heart?
- 6) What is the role of the hypothalamus in the endocrine system?
- 7) What is the role of the cerebellum in the nervous system?
- 8) What is the difference between the somatic and autonomic nervous systems?
- 9) What is the function of the renal pelvis in the urinary system?
- 10) What is the role of the trachea in the respiratory system?

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) What is the difference between red and yellow bone marrow?
- 2) What is the role of the thymus gland in the immune system?
- 3) What is the function of the renal cortex in the urinary system?
- 4) How many types of Anatomy?
- 5) How many types of muscles?

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) Why might it be important to determine the number of vertebrae in a given area when preparing for a surgical approach?
- 2) What attachments do the stomach and the spleen have?
- 3) Describe the structure and function of the equine hoof, including the different parts and their roles in movement and support?
- 4) Explain the structure and function of the equine respiratory system, including the role of the diaphragm and the mechanics of breathing?
- 5) Discuss the anatomy of the avian eye, including the different structures and their roles in vision and adaptation to different light levels?

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) Discuss the structure and function of the bovine udder, including the mammary gland, milk letdown reflex, and lactation cycle?
- 2) Describe the anatomy of the canine forelimb, including the bones, joints, muscles, and tendons?
- 3) Explain the structure and function of the avian respiratory system, including the air sacs, lungs, and breathing mechanism?
- 4) Discuss the structure and function of the bovine musculoskeletal system, including the bones, joints, and muscles involved in locomotion?

Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu
National Development Organisation, Promoted by Govt of India
Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES

TWO YEARS (FIRST YEAR) EXAMINATION

VETERINARY PHYSIOLOGY

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) Define Distal
- 2) Define Muzzle
- 3) Define Withers
- 4) Define Tonicity?
- 5) Define Isotonic Solution?
- 6) Define Action Potential?
- 7) Define Blood Pressure?
- 8) Define Gas Exchange?
- 9) Define Absorption?
- 10) Define Substrate?

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) Define the term diffusion?
- 2) What is meant by the term selective permeability?
- 3) Define the term baroreceptor reflex?
- 4) Define the term glomerular filtration rate?
- 5) What is meant by the term renal threshold?

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) Describe the potential ocular manifestations of hyperlipidaemia. What systemic diseases may be associated with hyperlipidaemia?
- 2) Describe the factors that are important in the development of cataract in farmed salmon.
- 3) Describe those conditions which result in abnormal appearance of the equine granula iridica (corpora nigra).
- 4) Explain the process of renal filtration and reabsorption in the kidney?
- 5) Explain the process of action potential generation and propagation in neurons?

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) Make notes on the structure and function of the tapetum lucidum in the sheep and goat.
- 2) Describe the renin-angiotensin-aldosterone system and its role in regulating blood pressure in animals?
- 3) Explain the process of muscle contraction and the role of calcium ions in muscle contraction?
- 4) Explain the role of hormones in regulating physiological processes in animals, with specific examples?

Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu
National Development Organisation, Promoted by Govt of India
Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES

TWO YEARS (FIRST YEAR) EXAMINATION

VETERINARY SCIENCE

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) What is nutrients?
- 2) Define Brain injury?
- 3) Define zoonosis?
- 4) The term brachycephalic?
- 5) Define the term colostrum ?
- 6) What is the definition of euthanasia in veterinary medicine?
- 7) The concept of a surgical asepsis in veterinary surgery
- 8) What is the definition of a castration in veterinary medicine?
- 9) The term fecal flotation and its use in diagnosing intestinal parasites in animals?
- 10) What is the definition of a fracture ?

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) The concept of a dental prophylaxis ?
- 2) What is the definition of "oncology" in veterinary practice?
- 3) What is the definition of "polyuria" ?
- 4) What is the definition of "dystocia" ?
- 5) The concept of "toxicology" ?

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) What is swine production?
- 2) What is pleuritis? Classify pleuritis?
- 3) What is absorption? Where is it located?
- 4) Discuss the etiology, clinical signs, and treatment options for common gastrointestinal disorders in animals?
- 5) Describe the structure and function of the urinary system in animals?

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) What are the difference between hemoptysis & hematemesis?
- 2) Explain the principles and practices of herd/flock health management in livestock production?
- 3) Describe the principles and practices of veterinary ophthalmology, including the diagnosis and management of common eye diseases and conditions in animals?
- 4) Explain the principles and applications of molecular diagnostics in veterinary medicine, including

Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES

TWO YEARS (FIRST YEAR) EXAMINATION

CATTLE FEED AND GROSS PRODUCTION

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) Define Total Mixed Ration (TMR) ?
- 2) Define the term "forage" ?
- 3) provide examples of essential nutrients?
- 4) Define the term "prebiotics"?
- 5) provide examples of crucial vitamins?
- 6) The process of silage fermentation in cattle farming?
- 7) Role in balancing gross production and environmental impact?
- 8) Define the term "integrated pest management" ?
- 9) Define the term "Gross Domestic Product (GDP)" ?
- 10) The impact of technological innovations on modern agriculture ?

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) How it contributes to both environmental sustainability and increased gross production?
- 2) Define "rumination"?
- 3) Define "ensiled forage"?
- 4) The concept of "metabolizable energy" in the formulation of cattle feed?
- 5) What factors influence the metabolizable energy content of feed?

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) Explain the process of formulating a balanced Total Mixed Ration (TMR) for cattle feed?
- 2) Describe the significance of mineral supplementation in cattle feed and identify key minerals?
- 3) Explain the principles of rotational grazing and its benefits for sustainable cattle farming?
- 4) Describe the nutritional considerations for different life stages in cattle, such as calves, heifers, and mature cows?
- 5) Explain the significance of "prebiotics" in cattle feed and how they contribute to digestive health?

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) How does the inclusion of probiotics in cattle feed contribute to the microbial balance in the rumen, and what are the potential benefits?
- 2) Detail the impacts of different types of feed additives, such as prebiotics and enzymes, on overall cattle health and performance?
- 3) Explain how sustainable farming practices, including organic farming and agroecology, contribute to the long-term goals of gross production?
- 4) How do efficient water management practices, including irrigation techniques, impact crop yields and contribute to increased gross production?

Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu
National Development Organisation, Promoted by Govt of India
Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES

TWO YEARS (FINAL YEAR) EXAMINATION

LIVESTOCK PRODUCTION MANAGEMENT

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) Advantages and disadvantages of crossbreeding?
- 2) What is the definition of a Ruminant?
- 3) What does livestock production management involve?
- 4) How does grazing management contribute to sustainable livestock production?
- 5) What is Artificial Insemination?
- 6) Define Vaccination in the context of livestock health?
- 7) Define Creep Feeding?
- 8) Advantages of Grazing Management?
- 9) How it contributes to genetic diversity in livestock?
- 10) The concept of Stocking Density and its impact on animal welfare?

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) Define Parasitism ?
- 2) Define the Gestation Period?
- 3) Define Carrying Capacity ?
- 4) Housing?
- 5) Health?

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) Explain the concept of Feed Efficiency and its importance in livestock production
- 2) Explain the importance of Animal Husbandry ?
- 3) Examine the advantages and challenges associated with Crossbreeding in livestock?
- 4) Explain the importance of Animal Husbandry in ensuring the well-being and productivity of livestock, covering various management aspects?
- 5) Analyze the nutritional composition of Silage and its role in meeting the dietary requirements of livestock?

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) Contagious caprine pleuropneumonia?
- 2) Describe the parts of animal nutrition?
- 3) Explain the concept of Sustainable Livestock Production, covering environmental, economic, and social dimensions?
- 4) Examine the impact of Livestock Diseases on production systems, discussing prevention, control Measures, and the economic consequences of disease outbreaks, with a focus on zoonotic diseases?

Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu
National Development Organisation, Promoted by Govt of India
Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES

TWO YEARS (FINAL YEAR) EXAMINATION

PRIMARY TREATMENT OF ANIMAL DISEASES

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) The concept of Biosecurity in the primary treatment of animal diseases?
- 2) Define the term Vector Control in the context of animal disease prevention?
- 3) What is meant by Isolation in the context of managing contagious animal diseases?
- 4) Define the term Hygiene in the primary treatment of animal diseases?
- 5) What is meant by Diagnostic Testing in the primary treatment of animal diseases?
- 6) Define the term Antibiotic ?
- 7) The role of Topical Treatment in the primary care of skin conditions in animals?
- 8) The role of Insect Repellent in the primary prevention of vector-borne diseases in animals?
- 9) What is meant by the term Antiviral and its role in the treatment of viral infections in animals?
- 10) Define the term Autogenous Vaccine and its application ?

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) Define the term Pathogen ?
- 2) What is meant by the term Antioxidant and its role in animal health?
- 3) Define the term Mange and its implications for animal skin health?
- 4) What causes BSE?
- 5) What are the preventing scours?

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) Discuss the importance of Vaccination in veterinary medicine, covering the types of vaccines, the vaccination schedule, and the impact on herd immunity?
- 2) Explain the concept of Biosecurity in the primary treatment and prevention of infectious diseases in animals?
- 3) Explain the importance of Prophylaxis in veterinary medicine, covering its role in preventing various diseases and promoting overall herd health?
- 4) Explain the role of Therapeutic Vaccination in managing and treating specific diseases?
- 5) Explain the significance of Autogenous Vaccines in specific disease situations?

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) Discuss the principles and applications of Immunotherapy in the treatment of cancer in animals?
- 2) Explain the principles of Chemotherapy in veterinary oncology?
- 3) Explain the applications and challenges of Gene Therapy ?
- 4) Write about calf disease?

Nehru Skill Development Mission

Established Under Act 1882, Registered Under Govt of Tamilnadu
National Development Organisation, Promoted by Govt of India
Central Board of Examination

DIPLOMA IN VETERINARY SCIENCES

TWO YEARS (FINAL YEAR) EXAMINATION

ARTIFICIAL INSEMINATION

Marks: 100

TIME: 3 Hours

I. SHORT ANSWER QUESTIONS : (10X2 = 20)

- 1) Define an Ai (artificial insemination)?
- 2) Define External organs?
- 3) Define The vagina?
- 4) How to Control of the oestrous cycle?
- 5) What are the External signs of pregnancy?
- 6) What are the Difficult calving (dystocia)?
- 7) Define Ampulla?
- 8) Define Thawing?
- 9) Timing of insemination?
- 10) How to Preventing transmission between animals?

2. WRITE SHORT NOTES ON: (5X3 = 15)

- 1) What are the Poor seal between straw and sheath?
- 2) Define Carbohydrates and fat?
- 3) What is the detection of estrus?
- 4) What is disadvantages of A.I?
- 5) Describe about semen Technology?

3. WRITE SHORT NOTES ON: (5X5 = 25)

- 1) Write Brief Answer about an Internal organs?
- 2) Explain Hormones involved in the reproductive cycle?
- 3) Write Brief Answer about an Structure of the ovum?
- 4) Explain about Accessory glands?
- 5) Explain about Vapour shippers?

4. ESSAY QUESTIONS: (4X10 = 40)

- 1) Write Long Answer about The reproductive tract of the cow?
- 2) Describe about Insemination of the cow?
- 3) Write Long Answer about Faults in AI technique?
- 4) Write Long Answer about Costing an AI program?
